Bath Township EMS Teams Up with Bath High School Athletic Trainers

Bath Township Fire Department personnel will be conducting a joint training session with Bath High School Athletic Training staff on Monday, 8/14/17 at 6:00 P.M. at the fire station.

Annually, our agencies come together to review policies and protocols specific to the care and treatment of student athletes. Specifically, the training will focus on injuries of the head, neck, and spine.

The fire department provides a staffed ambulance at all home varsity football games, but all sports will be considered and discussed in the joint training. The training will consist of both a lecture and a hands on portion.

Bath Twp. Fire Chief Joseph Kitchen stated, "I am proud of our close working relationship with Bath Local Schools and I am confident that in the event of an injury to one of the student athletes, that they will receive the best care by all responders."
